Programmes and Links

International Programmes and Links are relationships which the University of Nairobi establishes with other universities/ organizations locally and abroad. Such programmes and links are governed by MOUs that stipulate the basis upon which the relationship should be operated. The university recognizes linkages that are collaborative in nature based on mutual understanding, equal partnership and reciprocity. Programmes and linkages provide avenues through which academic members of staff and students can further their research activities and at the same time jointly source for funds with their collaborators in order to promote research activities, institutional capacity building, exchange of publications and journals.

The University of Nairobi has a reputation for establishing strong collaborations with recognized institutions. Currently the University of Nairobi has over 200 active Memoranda of Understanding and Agreements signed with various Institutions and are being implemented by our six colleges namely; College of Health Sciences (CHS), College of Humanities and Social Sciences (CHSS), College of Biological & Physical Sciences (CBPS), College of Architecture and Engineering (CAE) and College of Agriculture and Veterinary Sciences (CAVS). [click here to view active MOUs per college](#) [8]

The Link below shows details of the the collaborating institutions and nature of collaborations.

[Collaborations with other institutions](#) [9]
